

I sold my AM radio station in April 1997. Have since been pursued by religious accounts who are no longer able to find or afford broadcasting outreach for their followers. A low power FM outlet would allow me to serve them and their parishioners. I am anxious to file for such a C.P. I will provide statements supporting this claim from various religious leaders if requested. Affording citizens communications at this neighborhood level would be especially meaningful now that both AM and FM facilities have been taken over by big business interests.
