

I am opposed to implementation of the proposed Low Power FM (LPFM) rules. I strongly support the initial Comments in this proceeding filed by the Public Radio Regional Organizations (the "PRROs"), the Station Resource Group ("SRG"), the Corporation for Public Broadcasting ("CPB"), and National Public Radio ("NPR").

I am particularly concerned about the effect of interference on radio reading services for the print handicapped and on translators that bring public radio service to listeners outside a station's primary coverage area. I believe LPFM would be a disservice to the millions of people who currently listen to public radio but would lose that service due to interference.
