Dear Sir or Madam,

DOCKET FILE COPY ORIGINAL

Reference: MM Docket 99-25

Please do not let the major media groups persuade you to drop your commitment to promote community participation on public airwaves by way of LPFM. We need some form of low power FM licensing available for local voices.

I have a particular interest in seeing LPFM service become available in the Sun City area of Georgetown, TX, but this type of license should be available all over the country.

I urge you not to be overcome by the loud voices of the established broadcast community. The time for interesting local radio has come again! Please listen to the squeaking of the wheels that keep this country rolling along-the common men and women.

Sincerely yours,

Tanya C. Early
