

To specifically address areas where you request comment:

1. I feel that the 10-watt and 1-watt stations are at least as valuable as the 100-watt and 1,000-watt ones. Please make the entire spectrum available. Think how individual and community involvement and responsibility would increase, especially in densely populated areas!

2. Regarding former "pirate" broadcasters, I think that they should be allowed to gain licenses. Former criminals, once they have done their time, are allowed to walk the street like anyone else, aren't they? Let these people have the same rights as anyone else.

Thank you very much for accepting community comments. Please, again, make these licenses available. POWER TO THE PEOPLE!!!
