

I am writing in regards to the proposed rules changes concerning Low Power FM. I feel this would be beneficial to the area I live in as we have no local broadcast services. Here in Mesquite, NV we sit in a bowl and the only stations we get are those that are geared towards their cities of origin being Las Vegas, NV or St George, UT. It would be a great asset to this community to have a low power fm radio station and I would seriously consider applying for a license when and if they do become available. Thank you for taking the time to read my comments on this issue.

Greatfully, Yours
Stan Hess
