FCC MAIL ROOM

Hello,

I'm writing you to ask you to permit low-power broadcasting stations on the radio dial. It's time that the homogenized fare offered by a few super-rich corporations (in an effort to even further enrich themselves, naturally) has some competition from authentic music lovers, who want the music to be heard! Unfortunately today, ~~the~~ the music on most stations is merely a ~~thought~~ afterthought, secondary to the commercials that litter the playlist. Help turn music back over to music lovers, instead of corporate accountants!

Thank you!

Sincerely,

Ken Nelson

5450 Douglas Drive North

#228

Crystal, Minnesota

55429

→ KUOM-AM, 770 Minneapolis

P.S. Also, please allow Radio K. to be on for extended hours. It's the best station on the air in this area, and yet they have to end their broadcast day with the setting of the sun. Please extend their hours of air time!
