The radio bands are full but not of music or information  
that is relevant or interesting to me. Aside from the  
public radio stations, the corporate-influenced content  
of the radio stations is like walking through a shopping  
mall anywhere in America. Radio can help bring  
people together and make communities more cohesive.  
Washington, DC needs this community strengthening  
service.

Please ignore the voices against this very necessary  
and worthy idea. I applaud it and hope it  
passes.

Yours sincerely,

Jeanne Segal
