FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

To Whom it May Concern:

I am writing this letter to show my support for low-power FM radio. I feel that with the current state of affairs in the Denver market, there is little opportunity for the issues that matter specifically to the community in which the low-power FM stations would be broadcasting in are able to be met.

I feel that some of the benefits would include such things as:

-An opportunity for local politicians to express their viewpoints that they might not otherwise be able to express on large, corporate-based radio stations.

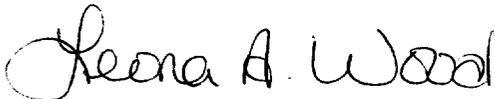

-Local musicians would have an opportunity to have their music be heard whereas without the benefit of local low-power FM radio stations, their opportunities would be much more limited.

-It gives local merchants a different venue in which to advertise at a much more cost-effective way.

-Overall, I also believe that it would give more women an opportunity to be presented as intelligent and capable members of not only the broadcasting community, but in the community as a whole.

Please consider these factors when the time comes to make a decision. Thank you.

Sincerely,

Leora Wood
