FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

To Whom It May Concern:

It has come to my attention through several sources that low power FM radio would be very beneficial to the community and to small groups of people trying to be heard. It would also create easy access for community participation and the proliferation of local voices. Based upon my limited knowledge of 1st ammendment rights, this would be the right to free speech. Most corporation businesses, ie. KPBI and KOSI, would not play smaller bands that are not paying huge amounts of money to be able to have their music played.

It would also give the community a chance to be able to have neighborhood events, or upcoming conventions that are not considered the best interests of larger radio corporations. We should have the opportunity to be heard and considered for public awareness.

Please support the legislation and help with smaller companies trying to make something of themselves.

Thanks for you cooperation

John R. Wiltsie
