Dear Chairman Kennard,

I am writing to you as a concerned citizen and supporter of micro-powered radio. It is my understanding that your agency is considering making rule changes that could re-legalize FM micro-radio broadcasting in some form. I believe that these rule changes are an important step that the Commission can take towards addressing the serious inequities in ownership and access that have long been the norm in American broadcast media.

I wish to express my support for the creation of a legal low-powered FM service that incorporates the following elements:

- 1) Non-commercial format
- 2) Local ownership
- 3) Fast, fair and efficient licensing
- 4) Self-regulation by the micro-radio community in terms of frequency allotment and content

Furthermore, I would like to encourage your Commission to drop its legal proceedings against the civil disobedience movement that has put this issue on the table. I believe that amnesty for the activists in the existing micro-radio community and the creation of a new LPFM service that meets the above criteria will be effective and appropriate gestures towards the creation of a diverse, accessible radio medium--an issue which I understand you are personally concerned with.

Sincerely,

Alexandra Leader

I listen to Free Radio Gainesville, 94.7 FM + LOVE it! It's the only radio in this town I've supported since I've lived here. I moved to Gainesville 10 years ago + was saddened that there wasn't even a college station + legalize LPFM! Radio for people - NOT PROFIT!!!

Sincerely,

Jessica Mills

Dear Chairman Kennard,

I am writing to you as a concerned citizen and supporter of micro-powered radio. It is my understanding that your agency is considering making rule changes that could re-legalize FM micro-radio broadcasting in some form. I believe that these rule changes are an important step that the Commission can take towards addressing the serious inequities in ownership and access that have long been the norm in American broadcast media.

I wish to express my support for the creation of a legal low-powered FM service that incorporates the following elements:

- 1) Non-commercial format
- 2) Local ownership
- 3) Fast, fair and efficient licensing
- 4) Self-regulation by the micro-radio community in terms of frequency allotment and content

Furthermore, I would like to encourage your Commission to drop its legal proceedings against the civil disobedience movement that has put this issue on the table. I believe that amnesty for the activists in the existing micro-radio community and the creation of a new LPFM service that meets the above criteria will be effective and appropriate gestures towards the creation of a diverse, accessible radio medium--an issue which I understand you are personally concerned with.

Sincerely,

We need more ~~of~~ variety on the radio
it greatly helps to diversify the
community

Sincerely,

Vinod Tandon

How else will us lesbians, puerto-ricans, artists, musicians, activists etc. be fulfilled by the airwaves. The shutting down of community-based stations is discrimination.

Sincerely,

Mary Muff

Millions of people support this movement, your statements of support are encouraging, thereby I'm expressing my belief that this movement will benefit so many who have no love for radio airwaves because of the non-diversity and repetition of formats and music. America is renowned for diversity, it is one of the main strengths in this country and must be allowed to expand. Please continue your support. Thanks,

Sincerely,

CRAIG BAXTER
