Re: **Ex Parte**
MM Docket No. 99-25

Dear Ms. Salas:

Lynn Claudy, Mark Fratrack, Jack Goodman, Lori Holy, Dave Wilson and the undersigned met with Roy Stewart -- Chief of the Mass Media Bureau, Dale Hatfield -- Chief of the Office of Engineering and Technology, and the attached list of FCC personnel on November 8, 1999. The topic of discussion dealt with the above-captioned proceeding -- the FCC's Notice of Proposed Rulemaking dealing with the creation of a new, low power FM radio service.

We presented educational background information on the FCC's current 2nd and 3rd adjacent channel protections and the interference that currently exists due to short-spaced channel assignments. We then explained the NAB study submitted as part of the NAB's initial comments filed in this proceeding. We explained specifically the methodology used, why the methodology was selected, and the results of the study.

Feel free to contact me with any questions you may have.

Sincerely,

Karen Fullum
