RECEIVED

DEC 6 1999

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Re: Notification of Ex Parte Presentation in MM Docket No. 99-25

Dear Ms. Salas:

On December 3, 1999, Dr. Charles Jackson met with Evan Kwerel and Jonathan Levy of the FCC's Office of Plans and Policy ("OPP") and with Michael Marcus of the Office of Engineering and Technology ("OET"), at the request of the National Association of Broadcasters ("NAB"). Dr. Jackson was one of the authors of a report prepared for NAB as part of our reply comments in MM Docket No. 99-25.

During his presentation, Dr. Jackson discussed the contents of his report with the FCC staff members. The report compared the four receiver studies submitted in MM Docket No. 99-25. It discussed the differences and similarities between the four studies, compared the data from each and ultimately concluded that all four receiver studies support the view that relaxing the FCC's adjacent channel protection ratios would create increased interference in the vast majority of existing FM receivers.

Any questions concerning this matter should be referred to the undersigned.

Respectfully submitted

cc: Mr. Evan Kwerel
Dr. Jonathan Levy
Mr. Michael Marcus
