Washington, DC 20554

RE: Ultra-Wideband  
ET Docket 98-153

Dear Ms. Salas:

I am Co-CEO of ENVOY Corporation. ENVOY employs various telecommunication technologies in our business. We are the largest healthcare transaction processor in America and also process a great deal of credit card transactions. We believe that Ultra-Wideband Communication technology could bring a great deal of cost efficiencies to the healthcare industry. We urge the FCC to quickly adopt the governing regulations and do whatever is necessary to bring this technology to commercial reality.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim D. Kever", written over a circular scribble.

Jim D. Kever  
President and Co-Chief Executive Officer
