Re: Ultra Wideband, ET Docket 98-153

Dear Ms. Salas.

I am writing in response to the FCC'S Notice of Proposed Rule making an Ultra Wideband radio.

I am President of the Florida Adult Day Care Association, an adult day care administrator. And an Alzheimer's support group leader. I am also active with other community organizations that serve adults and frail elders.

Our mission is to promote quality adult day services for frail and/or impaired adults so they can remain in their homes and communities .

We feel the use of Ultra Wideband technology would allow our constituents to remain safely and independently in their homes by providing quick response to emergencies because of the tracking capabilities of Time Domain's UWB technology.

We therefore urge the FCC to approve the Ultra Wideband proposed rule.

Sincerely,

Alicia Schindler,
President of the Florida Adult Day Care Association
