

Please preserve the ITFS spectrum for educational purposes. Our schools utilize ITFS to deliver staff development, educational programs, classes to home bound students. Live interactive meetings with parents, business leaders, civic and governmental leaders. Collaborations with community groups. Our community college helps provide courses for our parents and dual enrollment for our students. Older people without children in our schools keep up with the educational process and volunteers are reached through ITFS.

We need your support to continue this technological innovation to the citizens in our area.

Thank you for the continued support you have provided our distance learning programs.

Sincerely,

Jack Roberts
Director of Learning Resources
St. Lucie County Public Schools
