Re: Ex Parte Notification
ET Docket No. 98-153
Ultra-Wideband

Dear Ms. Salas:

This is to note that on April 12, 2001, Dr. Michael Marcus and John Reed of the FCC Office of Engineering and Technology, and David Anderson, Edward Drocella, Steven Jones, and Mark Settle of the NTIA visited the Johns Hopkins University Applied Physics Laboratory (JHU/APL). The meeting discussions focused on technical information in the reports of the JHU/APL and NTIA concerning ultra-wideband signals and the Global Positioning System which have been filed in the reference ET Docket.

Respectfully,

Allen J. Paltell Jr.

Cc: Mssrs. Marcus, Reed, Anderson, Drocella,
Jones and Settle
