

The application for our LPFM has appeared in Appendix C of the second Report and Order and thus has been dismissed because question 8(a) was answered "yes". We are therefore filing a minor amendment to our application will allow us to answer "no" to question 8(a) because the parties to the application have changed.

We would also request to change our frequency request from channel 300 to channel 279/103.7 FM to further comply with the new rules.
