Re: Ex Parte Notification and Summary, Revision of Part 15 of the Commission's Rules Regarding Ultra-Wideband Transmission Systems, ET Docket No. 98-153

Dear Ms. Salas:

On June 12, 2001 the undersigned had a telephone conversation with John Reed of the Office of Engineering and Technology. We discussed issues related to the design of UWB transmissions such that the signals appear noise-like to a GPS receiver. Time Domain plans to submit additional information on this topic at a later date.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. §1.1206, an original and a copy of this letter have been submitted for inclusion in the public record. Please contact me at the phone number listed above if you have any questions concerning this letter.
