

I'm writing to ask you to stop the transfer of Global Crossing to Hutchinson Wampoa and Singapore Telephone (STT).

I am a shareholder and strongly feel that a case of fraud has been committed in regards to this company.

Beyond this, I feel that selling such a national vital asset is something that deserves to be looked at under a microscope. If there is any chance at all that the buyers could use it against our national interest, as I believe the sale of Global Crossing will do, then you should serve the national interest and stop the sale from moving forward.

I am very interested in what the FCC does in this matter and would appreciate it if you could let me know when new information regarding Global Crossing is released by your office.

Sincerely,

Mike Schumacher
