

November 20, 2002

Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12th St., S.W.  
Washington, DC 20554

Re: ***Ex Parte* Notification**  
ET Docket No. 98-153  
Ultra-Wideband (UWB)

Dear Ms. Dortch:

On November 19, 2002, Paul Withington and Glenn Morris of Time Domain Corporation, and I met with Commissioner Michael J. Copps and his Legal Advisor, Paul Margie.

We provided a brief demonstration of Time Domain's through-wall radar device, RadarVision, and discussed our Petition for Reconsideration filed in response to the Commission's First Report & Order on UWB. We discussed the operation of the Radarvision 2000 device in detail including specific uses by law enforcement and public safety personnel. We urged the Commission to adopt the changes in the First Report & Order Time Domain proposed in our petition to allow through-wall radar devices to operate at Part 15 Class B levels (broadband emissions levels of up to -41.3 dBm eirp). We discussed restrictions on the devices that currently exist under the rules including: use only by law enforcement and public safety personnel; a limit on the number of units that may be sold, coordination with federal agencies, and registration.

In accordance with the Commission's rules, an original and one copy of this are being filed. Please contact me with any questions concerning this matter.

Respectfully,

Jeffrey L. Ross  
Vice President  
Corporate Development & Strategy

cc: Commissioner Michael J. Copps and Paul Margie
