

I entered into a contract with ALLTEL of Arkansas on @ 18 Dec 02. I have encountered numerous problems with billing. I have had to make three calls about over billing. The main complaint that I have is ALLTEL had my home long distacance carriers changed to ALLTEL with out my consent or notification. I found out about it by my long distacance carriers, SBS and Sprint, calling to let me know. The action appeared on my second bill which I called and had removed and refused to pay the long distance calls incured. I would like to know what are my rights as a subscriber concerning ALLTEL changing my long distacance carriers without concent?
