

In the Matter of ET Docket No. 02--135, I fully support the comments of the ARRL (THE NATIONAL ASSOCIATION FOR AMATEUR RADIO) dated January 27, 2003 regarding Public Notice, FCC 02-322, released November 25, 2002.

In addition, I wish to state that the Amateur Radio Service is not unlike other valuable National Resources in that it provides an important role in our society and should be safeguarded from any and all threats that would diminish its value to the nation.

Sincerely,

/s/ Steve Hajducek, N2CKH
