Re: WT Docket No. 02-55
Ex Parte Presentation

Dear Ms. Dortch:

At the invitation of Edmond Thomas, Chief, Office of Engineering and Technology ("OET"), on Thursday, May 29, 2003, Lawrence Krevor, Vice President – Government Affairs, Nextel Communications, Inc. ("Nextel"), Leonard Cascioli, Nextel's Vice President - RF Engineering and Operations, Tamara Casey, Nextel's Vice President – Technology Strategy & Network Architecture and Deputy Chief Technology Officer, and I attended a "roundtable" meeting with staff members from OET. This meeting was attended by numerous representatives of companies and organizations from the wireless industry. During this roundtable discussion, Nextel's representatives and other parties addressed issues relating to the Commission's above-captioned rulemaking on public safety communications in the 800 MHz band. In particular, the discussion focused on the Consensus Plan for resolving CMRS – public safety interference in the 800 MHz band, as well as on a recent technical submission from Motorola, Inc. The facts and arguments presented by Nextel at this meeting are reflected in written comments previously filed by Nextel and the Consensus Parties in this proceeding.

Pursuant to section 1.1206(b)(2) of the Commission's rules, 47 C.F.R. § 1.1206(b)(2), this letter is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Sincerely,

/s/ Regina M. Keeney
