

I do not think that there should be looser limits on corporations to own more of the entertainment and information companies. It will only allow corporations to have a greater influence on the way people think, causing more propaganda...The independence of informational deliver's is essential because it is free from influential companies who try to look good no matter what and also have deals with government officials. please, as an informed patriotic citizen of the United States, I beg of you to not pass the proposal tomorrow(June 2nd) which loosens the limits placed on corporations. Thank you, Rebecca
