Re: Notice of Ex Parte Presentation; WT Docket No. 02-146

Dear Ms. Dortch:

On June 19, Scott Morris, General Counsel and Senior Vice President of Public Affairs of Terabeam Corporation (“Terabeam”) and the undersigned met with D’Wana Terry, Ramona Melson, Keith Fickner, Jennifer Burton and Gerardo Mejia, all of the Wireless Telecommunications Bureau to discuss the above-referenced proceeding. Consistent with Terabeam’s comments and reply comments, the following issues were addressed:

- Licensing of millimeter wave spectrum should be accomplished in a manner that offers protection from other users. Band manager licensing and traditional unlicensed operations are not favored.
- The FCC should not limit the use of the millimeter wave bands to the use of dual band frequency division duplexing (“FDD”) technology; regulations should permit the use of time division duplexing (“TDD”) duplexing technology.
- The FCC should adopt the proposals for automatic transmitter power control and the restrictions on beamwidth and power limits proposed in Terabeam’s comments.

Pursuant to sections 1.1206(b)(2) of the Commission’s rules, this letter is being submitted electronically to your office. Copies are also being served on the Commission participants in the meeting.

MINTZ, LEVIN, COHN, FERRIS, GLOVSKY AND POPEO, P.C.

Ms. Marlene H. Dortch
