

The "BPL" Broad Band Over Power Line is a very bad thing to do to the Radio Spectrum up to 80 Mhz. This could not only affect Amateur Radio Operations but Land, Fixed Mobile, and Public Safety Radio systems and the list goes on and on. Only an idiot would approve of this system. Get the greed out and drop this idea like a hot potato. To say the least I am vehemently opposed to "BPL" being approved.

David L. Mauldin
