

Hello,

I am just finding out about this proceeding and have quickly researched the technology. not only do I beleive it will affect the HF ham bands, But it will also affect my Part 15 AM Broadcast station and my future plans to run a Part 15 AM Carrier Current Station. I therefore not in favour of this proceeding and urge you to vote no on this technology.

Thank you,

Rev. Robert P. Chrysafis (kc8gpd)
