

Having seen the video of reception in areas with Broadband over powerline at <http://www.remote.arrl.org/news/stories/2003/08/08/2/?nc=1> , I am alarmed that this process will severely effect not only amateur radio operators but all of the high frequency spectrum in areas where BPL operates. I oppose the widespread use of BPL and ask that the FCC not permit it. R. McCown, amateur radio station AB0OD
