

I have been an Amatuer Radio operator for a few months and I love it. I also hope my children and grandchildren will be able to experience and take part in this wonderful hobby to the full extent possible. BPL will not allow them to do this because of the terrible interferance it will cause to the nation's HF and low VHF RF bands. These bands are also extremely needed for emergency services. Please do not take this wonderfully rewarding and needed hobby from our grandchildren's children. I hope you reconsider implementing this technology. Please consider all the needed services it will effect.
Thank you for the opportunity.
Heberto Garcia
