

I support fully the well founded Comment submitted by The American Radio Relay League concerning Docket ET 03-104. I feel this just another way for the government to take away our rights as citizens. I have been in Ham Radio since 1984 and feel that this all about "Money" Further research and innovations in BPL will be needed to avoid the great risk this innovative technology will not cause irreparable interference to services licensed to operate in the 2 MHz - 80 MHz frequency range. Approval of ET 03-104 would violate the existing FCC rules on non-interference and would be contrary to the best interest of the public.
