

To The Commission,

As a licensed Amateur Extra (K5XOR) I'm very concerned that the ability for amateur radio operator operators to conduct emergency and hobby-oriented communications will be seriously disrupted by current BPL implementations. While I support the FCC's position that high-speed Internet access should be available nationwide, I feel that the impact to amateur and non-amateur communication services by this new technology are severe and poorly engineered. I strongly encourage the FCC to not allow BPL in its current form to enter into service until the serious interference issues it causes are addressed.

Sincerely,

/s/  
Craig H. Rowland  
K5XOR
