*Erratum Filed in WT Docket 02-68, 03-66, and 03-67*

Marlene H. Dortch  
Secretary  
Federal Communications Commission  
TW-A325  
445 twelfth St. SW  
Washington, D.C. 20554

Dear Ms. Dortch:

On August 26, 2003 Grand Wireless Company, Inc. (GWC) filed timely comments on the above captioned proceedings. A typographical error occurred on page 2 of these comments that changed the meaning and may be misleading to a reader.

The original paragraph was:

- A. **The Coalition Proposal for Spectrum Realignment with an Alternative Plan.** The proposed default band plan, replaced by a similar but slightly different default band plan, would provide most licensees with an equal opportunity for maximizing technical applications. *The Coalition proposed default band plan does provide equal opportunity.* It is assumed that the Commission will allow licensees, if all licensees in the BTA agree to do so, to customize the band plan within their BTA or geographical service area.

The italicized sentence should have read:

*The Coalition proposed default band plan does not provide equal opportunity.*

Accordingly, GWC submits the attached Erratum. GWC asks that these comments substitute for, and take the place of, the comments filed in this docket on August 26, 2003.

Respectfully Submitted,

John de Celis  
President  
Grand Wireless Company, Inc.
