Dear Mr. Secretary

Please kindly take this letter as my comments regarding FCC Docket No. 03-104 regarding Carrier Current Systems/Power Line Broadband Systems

It is being mentioned in the above Docket

Radio communications is a vital way on any country's way to; keep abreast on national and world events, safeguard its homeland security as well as its emergency response groups that uses part of the communication spectrum for such groups.

As an Amateur Radio Operator and Short-wave enthusiast I oppose any system that would further degrade the quality of my hobby

Respectfully yours
