

Please consider, although Broadband Service is worth consideration;  
The FCC has promised to protect I as a Licensed User of the spectrum  
as An EXTRA Class Amateur Radio Operator, and avid Shortwave Listener  
as well as MOST IMPORTANTLY; Offer these priveledges with considerable  
investment ... our Civil Service contributions to emergency communications  
within our local communities and world-wide,  
will no-longer be free of pollution the FCC has promised to protect.
