

PLEASE consider the Janet Jackson/Justin Timberlake breast-baring stunt the "LAST STRAW" in indecent and sex-focused television programming and TAKE ACTION against these artists who admittedly acknowledged they changed the act after the last rehearsal. This stunt is an embarrassment to the American people, especially during a time of war when U.S. soldiers are dieing daily. Is that what they are dieing for?! And we wonder why there is continued terrorism against U.S. troops in Iraq? All that Osama Bin Laden and other leaders have to say is, "Look at what the Americans are going to bring to our country(s)!"
