

I'm sick of being told what I can and can't listen to just because some people think they know what's best for me. Why ruin my fun just because you don't think it's correct or proper? Are you perfect? My favorite radio stations suck now because they can't make adult jokes that I've been listening to for the past 4 years! It's been turned stale. I hope this makes you happy and I hope you all continue to live very boring lives.

I can't believe all this is over one little breast. And it wasn't even that good of one.
