

How dare the Clear Channel Executives make a remark apologizing to the American people that he had The Stern Show in their stations. You had him for 10 years and now since the Janet Jackson FCC and Christian Presidential administration you are cowardly falling and succumbing to the Government. You all jump the band wagon with his success and drop him as soon as your Company hits some obstacles. How can the American people respect that? I thought free speech was a constitutional right.

I guess if free speech is vulgar and insulting to some well connected Christian Organizations then our rights as American people are compromised. We will not stand for this, and it seems that these Religious Organizations have their priorities out of order. I am in the Military reserves and fought during Operation Enduring Freedom Stationed in Prince Sultan Air Base Saudi Arabia, and would be in an uproar if I was in Iraq fighting for are freedom and finding out that our freedom of free speech is in deep jeopardy. I am frightened to see what our future may bring with all this censorship in our lives. I am a Roman Catholic Republican and will be voting Democrat in the next Presidential election. I am ashamed of being a Republican supporter in 2000 and will not make that mistake in 2004.
