

I have just spent over a thousand dollars in ham radio equipment and myself and my daughter are learning the wonderful different aspects of amateur radio. From what I am hearing BPL will make my efforts and investments totally useless.

For the childrens sake, for my sake and for all of the amateur radio disciplines throughout the country that utilize the HF spectrum for the many good things that they accomplish, please put a stop to this incredible monster known as BPL.

Thank you,

Ken McFeggan
