

I can not believe that the FCC is going to let BPL happen after all the protesting going on. It is clear to me and every one, but the FCC, that this will distroy HF. It seems to me that the FCC should have new leadership. If you allow BPL in this country you will be opening the door to terrorists who will take full advantage of the fact that BPL has distroyed FEMA's and Amateur radio's emergency communications. Not only will they be cut off, but so will a lot of police, fire, and medical. Now wake up guy's. You should start thinking about the american people and stop listening to big companies who's only interest is MONEY! I am protesting this foolish idea that will help distroy my way of life. I VOTE NO!!!!!! TO BPL!!!!!!!!!!!!!!
