**Subject:** Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Kevin J. Martin  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Martin,

Emergency response communications have never been more critical, or more difficult

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Jeff Martin  
6414 Pirtlewood Cir  
Houston, Texas 77088

cc  
Representative Sheila Jackson Lee  
Senator John Cornyn  
Senator Kay Hutchison

I would hope that the loss of 343 of my brother Firefighters, and numerous Police Officers in the 9-11 attack would have taught us something. It is time for the bureaucracy of the F C C to end. There is a problem that needs to be solved now. I understand that millions of dollars are at stake for the cell phone companies, but what are ours lives worth? We do ours jobs due to our devotion to help the citizens of this great country, and not for the pay. Take a look at our pay scale and it will be obvious. Therefore we can not afford to hire lobbyist to fight this battle like the phone companies can. And what about the lives of your loved ones that we protect? If our communications are interrupted it could cost all of our lives. Please act now before another tragedy befalls us. It would be an even bigger tragedy since it was caused by the negligence of a Federal Gov't agency. Will you please help us and act NOW?

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Joanne Zabielski

Commissioner Kevin J. Martin  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Martin,

Emergency response communications have never been more critical, or more difficult

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

This issue also endangers people who use their cell phones while driving! As law makers, you should be the ones responsible for the countless deaths and injuries associated with this crisis!!!!

My husband is a police officer and it would be very unfortunate to have him killed in the line of duty because the federal government can't act quickly enough on passing this law.
