

Reading the information at this link:

<http://www.arrl.org/tis/info/HTML/plc/>

one gets the feeling that if "BPL" needs to be controled. It interferes with wireless communications, PERIOD. So how will Police, Fire, Military, FAA and others communicate? How will the tradition of FREE access to the broadcast content be continued?

But most importantly: How can the US government allow the usurpation of a controlled commodity?

Oh yeah, and the economy is on the rebound....
