**Subject:** Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Kevin J. Martin  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Martin,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Sean Pelan  
21814 116 st ct e  
Bonney Lake, Washington 98390

cc:  
Representative Jennifer Dunn

Commissioner Kevin J. Martin  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Martin,

IF THIS IS DONE WHAT WILL BE NEXT I SUGGEST THAT ALL POLICE AND EMERGENCY TYPE OF FREQUENCIES BE ALLOCATED IN THE HIGH BAND OF THE FREQUENCY AVAILABLE I.E. IN THE 150MHZ OR THE 460MHZ THE USE OF THE 800MHZ WILL ALWAYS BE SUSCEPTIBLE TO INTERFERENCE WITH THE USE OF DIGITAL SCRAMBLING WILL ONLY GET WORSE AS THE 800MHZ BAND WILL NOT TRAVEL THRU THE AIR WAVES AS FAR ALSO MUCH LIKE UHF TV STATION REQUIRE BETTER THINKING OF ANTENNAS ON DISTANCE FROM TRANSMITTERS

PLEASE SAVE OUR EMERGENCY PERSONNEL BY GIVING THEM COMMUNICATIONS SYSTEMS THAT WILL BE READABLE ON THE AIR WAVES KEEP THEM IN THE LOW AND HIGH BAND LESS SUSCEPTIBLE TO INTERFERENCE BY CONSUMERS AND CELLULAR USERS

ERLOPEZ STOCKTON, CA

**Subject:** Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Kevin J. Martin  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Commissioner Martin,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Frank Rodriguez  
PO BOX 641  
King City, California 93930

cc:  
Senator Dianne Feinstein  
Senator Barbara Boxer  
Representative Sam Farr
