

To Whom it may concern:

I am writing on behalf of MFJ Enterprises, Inc., my name is Randy Romero and I am the Human Resources Manager. Our Company has been in business for over 32 years in the amateur radio industry. I am sure that you have received many comments concerning the problem that BPL will cause in the way of interference. But I am writing to point out the effect this will have on the business of ham radio. I am concerned that it will cost our company the loss of jobs and I am sure it will cause a loss of jobs in the industry as a whole. Please consider some other way of accomplishing this worthy goal other than the BPL Proposal that is now on the table. Thank you for this forum to give our comments.

Sincerely,
Randy Romero
