

I OPPOSE the use of BPL as a solution to achieve broadband access!  
While I fully support broadband services, per se, BPL brings far more problems  
(including devastation of the amateur radio bands.  
However, there are better ways to deliver broadband that do not pollute the  
radio spectrum as Broadband over Power Line (BPL)  
does. Other solutions include fiber, cable, DSL, and wireless broadband. I  
OPPOSE the use of BPL as a solution to achieving  
this goal. Let's do it right and not just do it! Why mess  
things up for everybody, while punishing the honorable lineage  
to which legitimate broadband already owes a huge debt?"
