

Hello. I'm KA4HRE. My wife Sara is N4ZQK.
My daughter Emily is KG4UJH. My son Wyatt is KI4EOQ.
As you can see, we are a ham family. BPL needs further study.
It is apparent from all of the information that I have read that
neither side in this debate can state without reservation that
they have all the correct information.
Ham radio has been serving this great country of ours for
so many years in so many ways. As we face increased global
competition, science and math skills are increasingly
important to the youth of our country. A strong Amateur Radio
hobby can attract and encourage youth to pursue higher
education goals in technical fields. BPL could put a serious
damper on the hobby, perhaps in an unrecoverable fashion.

I beg that you simply give the concept more time and allow for more
impact studies. I also ask that the power industry be asked to
explain how they plan to avoid interference.

Thank you.

Jacky Winters, KA4HRE, Proud American
