During the meeting, AirCell described and reviewed the attached presentation regarding its preferred licensing plan for the Air-to-Ground (“ATG”) band. AirCell strongly urged the FCC to adopt a shared licensing model based on two or four overlapping licenses. AirCell also answered questions from FCC staff regarding some of the technical elements of its approach, including its provision of “deck-to-deck” coverage, as well as responded to various auction and licensing scenarios that the FCC could use for the ATG band.

Pursuant to Section 1.1206(b)(1) of the Commission’s rules, I am filing this notice electronically in the above-referenced docket. In addition, I am sending one copy of this notice to each of the FCC representatives listed below. Please contact me directly with any additional questions.

Respectfully submitted,

/s/ Michele C. Farquhar
